

Enabling organizations to have seamless access to explore, share, and unlock data value. With the mission to break down data silos.

## AT SNOWFLAKE WE ARE:

Passionate, Innovative,  
Ambitious

*There is only one Data Cloud. Snowflake's founders started from scratch and built a data platform that would harness the immense power of the cloud. But their vision didn't stop there. They engineered Snowflake to power the Data Cloud, where thousands of organizations have seamless access to explore, share, and unlock the true value of their data.*

Snowflake is hiring top Database, Distributed Systems, and ML engineers to grow our teams in Berlin, San Mateo, Seattle, Toronto, and Warsaw. How do you want to make your impact?
